A New Chapter Begins: Our Reading Hub Opens for All Children

We are delighted to announce the grand opening of our brand-new **Reading Hub**, a special space designed to inspire a lifelong love of books and reading among all our pupils.

The Reading Hub has been thoughtfully created as a calm, welcoming environment where children can relax, explore new stories, and immerse themselves in the magic of books. From colourful picture books to exciting chapter adventures and fascinating non-fiction, our shelves are filled with something for every reader — whether they're just beginning their reading journey or already devouring books by the dozen!

The Reading Hub will host a variety of activities to nurture a passion for reading. Children will be invited to take part in storytelling sessions, book clubs, author spotlights, and themed reading challenges. Teachers and staff will also share class reads, encouraging children to discover new genres and voices.

Our goal is simple: to make reading a joyful part of everyday life at school. We believe that stories have the power to spark imagination, build empathy, and open doors to new worlds — and we want every child to experience that joy.

We'd like to thank everyone who helped bring the Reading Hub to life — from staff to our pupils, whose ideas and excitement inspired the space.

The Reading Hub is now open to all children during designated class times and lunchtime sessions. We can't wait to see our young readers explore, imagine, and grow — one book at a time!
